THE MINISTER OF DEFENCE (SHRI GEORGE FERNANDES): (a) to (d) A statement is laid on the Table of the House.

Statement

1. In December 1979, the then Secretary Defence Production & Supplies, had proposed that posts in Directorate General of Inspections (DGI) at the level of Senior Scientific Officer I (SSO I) and above should be shared equally by the Civilian and Service Officers and that no post should be reserved for either category.

2. Thereafter Government appointed a Committee of Officers on 5.12.1981 to recommend on the bifurcation of posts on the basis of functions and job content so that separate channels for promotion could be provided for Civilian and Service Cadre.

3. The Committee identified posts accordingly to be manned by the two Cadres. A ratio of 44:56 of Civilian to Service Officers emerged. Govt accepted the recommendation in August 1982. The existing strength of the Civilian Cadre to the Service Cadre is in the ratio of 42:58. The ratio of Civilian and Service officers actually in position at SSO I level and above is 40.8:59.2. Posts, postions and responsibilities are assigned to each of the cadres keeping in view the requirements, exigencies and career prospects.
